

Our goals are to encourage interest and improvement in water gardening and horticulture by:

- Exchanging water gardening knowledge and experience within our membership,
- Supplying information on water features, gardens, aquaculture, and seasonal maintenance.
- Hosting speakers on water gardening, horticulture and related topics .
- Promoting the protection of the environment.
- Promoting the therapeutic benefits of water gardening and horticulture.
- Stimulating an interest in the study of water gardening and horticulture.
- Providing channels (meetings, events, website) for water gardeners to meet and interact with others with similar interests.

What do we offer?

- Eight monthly general meetings featuring informative speakers on various subjects related to water gardening. These meetings are usually held on the third Wednesday of the month at the Greenboro Community Centre unless another location has been specified.
- Summer Pond Socials where members can meet informally at other members' gardens (a great way to see and discuss various approaches to creating the perfect water garden).
- Special discounts at specified garden/retail centres.
- Special excursions.
- An Annual Water Garden Tour sponsored by this Society with the help of volunteers.
- An opportunity to get involved.
